

High-quality HVAC accessories manufacturer, providing commercial and residential HVAC solutions for over 40 years.

Commercial Application

Lineset Cover for
Multiple Applications

Architectural Lineset Cover

Slimduct PD commercial lineset cover, protects any surface mounted lineset installation, and can also be used as lineset cover between condenser and Slimduct RD system.

Featuring a compact design, Slimduct PD helps optimize limited space and make routine maintenance easy. Its round profile is available in three different sizes to accommodate larger linesets.

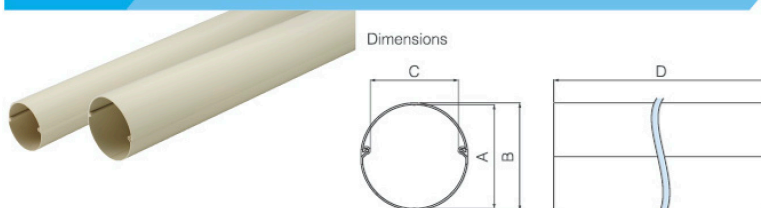

Constructed from a durable high-grade PVC, the system is weather resistant, UV stabilized and fire retardant. Slimduct PD can elevate lineset from wall, ceiling or deck surface, and is very easy to install.

FEATURES

- High-grade PVC
- Protects the linesets from mechanical and weather damage
- Easy to install and mounts with standard wall mounted pipe brackets
- Full range of fittings to accommodate complicated configurations
- Versatile, can be used for both HVAC and plumbing installations.
- Compact design uses less space than conventional racking systems
- Beautiful finish & style

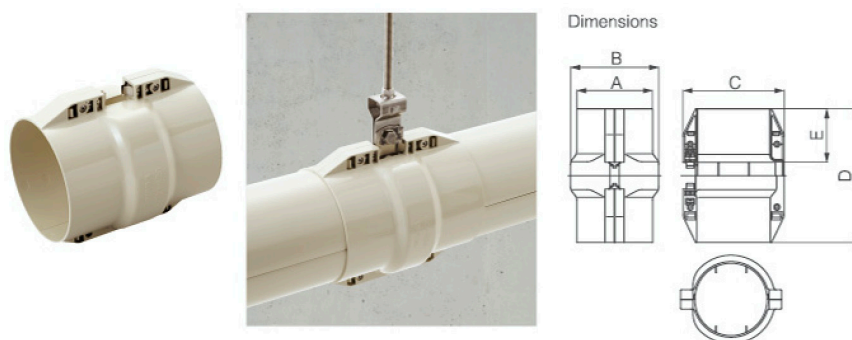

Full range of fittings to accomodate complicated installations. Main fittings below.

PD STRAIGHT DUCT
